Schneider Electric LC1D18M7 18A 3 pole contactor with AC/DC coil, ideal for industrial motor control, automation panels, and electrical systems. Reliable performance for contractors, OEMs, and industrial applications.

- ✓ Original Schneider Electric high-quality contactor
- ✓ 18A current rating for industrial motor control
- ✓ 3 pole configuration for reliable switching
- ✓ 220V AC coil for stable operation
- ✓ Long electrical and mechanical life
- ✓ Compact design for panel space optimization
- ✓ Easy installation and maintenance
- ✓ Ideal for automation, HVAC, and machinery control

## Technical Specifications

Manufacturer	Schneider Electric
SKU	SM-SCH-LC1D18M7-18A-CTR
Usage	Motor Control / Industrial Automation
Number of Poles	3 Pole
Type	AC Contactor
Rated Current	18 Ampere
Coil Voltage	220 Volt

Frequency	50 / 60 Hz
Brand	Schneider Electric
Model Number	LC1D18M7

## Product Description

---

The Schneider Electric LC1D18M7 contactor is a high-performance 18A 3-pole industrial contactor designed for reliable motor control and automation applications. Engineered with advanced technology and robust build quality, it ensures efficient switching and long operational life.

Widely used in electrical panels, industrial automation systems, HVAC systems, and machinery control, this contactor is suitable for contractors, panel builders, OEM manufacturers, and industrial users.

With a 220V AC coil, the LC1D18M7 provides stable operation and is compatible with various industrial control systems. Its compact design and easy installation make it a preferred choice for both domestic and international markets.

## Compatibility

---

Compatible with industrial control panels

motor starters

automation systems

PLC panels

HVAC systems

machinery control units.

Works efficiently with overload relays, timers, control circuits, and electrical distribution systems. Suitable for OEM panels, contractor installations, and industrial automation projects.

---
